

CONCORDIA COUNSELLING

APPENDIX C

COVID-19 POLICY

The impact of the Covid-19 pandemic has been widely impacting, involving for many people losses which may have included, but are not limited to:

- Bereavement
- Health
- Employment / Education
- Freedom
- Social interaction
- Relationships

As we have moved away from extremely challenging conditions towards a more recognisable way of life, there may remain health anxieties associated with the virus and other contagious risks.

I am absolutely happy to offer any reasonable adjustments, wherever possible, in working with clients on a face-to-face basis who may require reassurance around Covid-19 or other potential contagions. On this basis, I would be grateful if you could inform me of any concerns which you may have, to enable us to agree suitable arrangements as necessary.
